In Far East countries like Japan – Taiwan –Korea – china - people live for long years and they are healthy. WHY? They first depend on their herbal medicine and believe in nature. Healing forces are present within the body; you have to cooperate with the body's restorative powers.

We constantly see in our family or in friends' circle that people suffer from chronic diseases. They go on taking medicines- spend lot and lots of money but never get healthy.

In today's world of commercialism, people often miss out effective therapies, and lack the information and support they need.

When illnesses are due to body degeneration like heart disease, diabetes, arthritis, osteoporosis, etc most of drugs don't correct the underlying pathology. Long-term use of drugs never get people better, but slowly deteriorate due to side effects of the drugs, developing of poor immune function, advancing age problem and as time goes by, more problems are "discovered,"- more organs are involved so more drugs are prescribed - like this circle goes on. At some point the conditions can become so severe that just do nothing and wait for end.

Do not suffer from chronic diseases for yourself or in your family and get total cure to remove root cause of disease. Tremendous suffering could be avoided, but people don't know the right method.

Body has all ingredients to make healing by its own, but we need to know how to cooperate with the body's restorative powers.

Chronic diseases can be cured through combined approach of various systems of medicine like ayurvedic, homeopathy, naturopathy ...etc. One will be amazed to see the result after employing various systems of medicine. This gives result faster, with less suffering and in economical way. Combined approach of various alternative medicines can cover a broad range of healing philosophies, approaches, and therapies which will correct body degeneration, give definite and good results.

The great thing about these ancient remedies is that they usually do not have the health risks that some modern techniques and medications have today. All you need is to make a perfect and intelligent decision about health.

In medical colleges only modern medical science (allopathy) is being taught. In these modern medical colleges alternative medicine is not being taught. Also in some countries all alternative medicine are not recognized. As well, guidance

and treatment with alternative medicine is not available so easily. So for their bodily ailments, very few people think on the line of alternative medicines. Few do not have any idea about existence of alternative medicines! Alternative medicine as it stimulates life energy within the body; complete cure from chronic diseases is possible. Alternative medicine can also correct surgical pathology, so can avoid surgeries. This stimulates healing on the physical, emotional and spiritual levels to restore vitality and creative engagement in life. I by combining innovative technologies, diverse clinical knowledge and extensive experience, bring you effective interventions that expand you range of health and make perfect health.

Now Alternative medicine is not "alternative" at all, but rather the basis of the health care system.

A body constitution and body requirement varies from individual to individual. Every individual and patients handles the changes of chronic diseases differently. Individualized approach is of utmost importance. Healing forces are present within the body, and the physician's role should be to assist the body's natural state of homeostasis by cooperating with bodies efforts to heal it.

Sustained improvements in managing chronic diseases require better practice systems, very high doctors' skills, and more effective use of various alternative medicines.

I have organized and attended many seminars – workshops and conferences. I have been key-note speakers – panelist and also presented many medical research and general papers in various aspects of alternative medicine.

Through my vision, commitment to serve and determination to give as complete cure as possible, I develop a perfect plan. Perhaps you will not be able to find full knowledge of all various important systems of alternative medicine in any one medical Practitioner that is I.

I am determined to give you most comprehensive, unique, customizable and convenient healthcare solutions.

GOOD LUCK FOR YOUR PERFECT HEALTH

Yours truly,

Dr Prakash Shah (Baroda – Gujarat – INDIA)
Senior Practioner for Management of Chronic Diseases / Infertility

APPEAL

Dear web visitors,

For more than 35 years I have been dealing intensively and with great commitment to my patients.

We constantly see in our family or in friends' circle that people suffer from chronic diseases. They go on taking medicines- spend lot and lots of money but never get healthy- on the contrary they go on deteriorating. Mostly they have no idea how to get well. This web site educates all those chronic suffers for how to get well. Worth reading.

Constantly for these years, I have been constantly finding new and new solutions and approach for making easy solutions to the problems of diseases. At present also I am making constant dialogues with many renowned professionals all over world. As well I have also learned various scientific methods from the many Practioners who claimed to be having good result in management of chronic diseases.

It was for the first time that I introduced Laparoscopy in Baroda since 1976. I started new approaches in Baroda for Infertility.

I also got special training for tubal factor and microsurgical technique for tubal block reversal under world best authority – Dr Victor Gomel. As well I visited world's best centers in USA – John Hofkin, Baltimore, MD (15 days training in Advances in infertility management)– Hayward University, Boston (endocrinology and infertility)– California University- San Fransisco- CA (Jordon Phillip – Advances in Laparoscopic surgeries)_– and St Louice.

I am Fellow and Life Member; American Association of Sex Councilor, Therapist and Educationist. (AASECT).

Though I basically qualified as Obstetrician and Gynaecologist (1971), my quest for knowledge made me specialist for infertility and chronic diseases.

I also met numerous various experts in other disciplines of medicine- alternative medicine like homeopathy, ayurveda, naturopathy etc...knowing what they practice for chronic diseases. That is how, now I approach, (since last 12 years), problems of chronic diseases with all

other systems of medicine. **I have found that other systems of medicine can be very fruitful over and above conventional system of medicine.**

Based on my longstanding experience with all aspects of chronic diseases, I will offer good scope for satisfactory solution to give final result, at almost very low cost and that too in less time. Please benefit from my long experience.

I will do my best for your problem.

Yours truly,

**Dr Prakash Shah (Baroda – Gujarat – INDIA)
Senior Practitioner interested in management of chronic diseases / infertility**

Note :- It is requested to get print out of these web pages to understand thoroughly. Hard copies will make you possible to give for reading to other and all chronic disease sufferer.

Infertility Special Management

Human reproduction is the highest and complex function of the body. In bodily development this comes last and again this function vanishes first as age advances and is considered as sign of increasing age. Abnormality in any organ of the body can affect reproduction adversely. This should be considered in treating reproductive disorders. Each childless couple must have thorough knowledge of reproductive physiology. Most couples simply take it for granted that

they will be able to have children. They take conception for granted, and assume that pregnancy will happen when the time is right. Unfortunately, this is not always the case. In fact, one in six couples trying to have a baby will experience problems in doing so. People are often shocked when they discover that they are infertile and commonly at beginning go through a period of disbelief. Few others rush into treatment without proper diagnosis and planning. Infertility is often described as a life crisis. The overall impact of infertility on individuals differs greatly, and is influenced by many factors such as cultural

background; familial backgrounds and individual upbringing of life... etc.

Infertility is a medical condition that has many emotional aspects. Feelings such as anger, sadness, guilt, and anxiety are common and may affect couple's self-esteem and self-image. Couple may find it difficult to share their feelings with family and friends, which can lead to isolation. . It is important to know that these feelings are normal responses to infertility and are experienced by many couples. Ability of physician to deal with psychological problems is of paramount importance simultaneously with treatment of infertility.

There are a number of different treatments available. They are often used in combination with one another to provide the best results. Complimentary alternative therapies including prescription medications, homeopathy, naturopathy and herbal supplements can cure infertility. But only one type of approach is not sufficient and combined approach should be always resorted to.

Important factors for fertility: -

- 1) Semen should be normal – **Male Factor**
- 2) Semen should be deposited at proper place in vagina – **Coital Factor**
- 3) Cervix should be able to transfer the semen properly forward – **Cervical Factor**
- 4) Uterus should be anatomically and functionally normal – **Uterine Factor**
- 5) Fallopian tube should be functioning normally – **Tubal Factor.**
- 6) Ovary should be secreting normal ova – **Ovarian Factor**
- 7) Pituitary and other endocrine glands physiologically normal – **Endocrine Factor**
- 8) Mind should be in sound psychological state – **Psychological Factor.**

Ovulation - Conception - Implantation

Chronic Diseases - Understanding

A chronic disease is one which last for 3 months or more. Chronic diseases generally cannot be prevented by vaccines or cured by allopathic medication, nor do they just disappear. Chronic diseases tend to become more common with age. Now with increased aged population there is increased prevalence of chronic diseases. Eighty-eight percent of Americans over 65 years of age have at least one chronic health condition.

The human body sends out a flare when something is awry. -- You should keep in mind for unexplained weight loss and/or loss of appetite, Slurred speech, parasthesia, weakness, tingling, burning pains, numbness, confusion, sudden agonizing headache, irregular bleeding from any organ

Modern medicine is organ specific, hence there are various specialties like... ophthalmologists, cardiologists, nephrologists, neurologists... etc. Each specialist treats their own disease by aggressive intervention and focus is often on treating the disease and not the person. **In modern medicine treatment most disorders are traced to chemical imbalances and are treated with powerful chemicals (drugs).**

Chronic diseases have a prolonged course of illness. Chronic diseases contribute much to illness, disability- morbidity and mortality. When

illnesses are not infectious, but due to body degeneration like heart disease, diabetes, arthritis, osteoporosis, etc most of drugs don't correct the underlying pathology. **Long-term use of drugs never get people quite better, and slowly deteriorate due to side effects of the drugs**, developing of poor immune function, advancing age problem and as time goes by, more problems are "discovered,"- more organs are involved so more drugs are prescribed. At some point the conditions can become so severe that just do nothing and wait for end.

This is where we must have to adjust our thinking toward consideration of the other system of medicine. **We need to know how to cooperate with the body's restorative powers. Tremendous suffering could be avoided, but people don't know the right method. People often miss out effective therapies, and lack the information and support they need.**

Chronic diseases can be cured through combined approach of various systems of medicine like ayurvedic, homeopathy, naturopathy ...etc. One will be amazed to see the result after employing various systems of medicine.

We are currently limited by a system that is built around treating acute episodes and responding to emergencies, not on effective management and cure of chronic medical conditions. **It is embarked (detailed literatures of diseases suffered are given for education) to believe that the system of modern medicine-allopathy is the only valid one and that all other natural medicine or pathies are more or less just quackery.**

Hearing the name of diseases we immediately think on line of pathophysiology. Immediately we are supplied from hospital about all the details of disease we are suffering from. We get knowledge - what is disease? Where is the fault? We go on taking medicine or submit for surgery but we do not ask question whether this medicine or surgical procedure will have final cure? We hardly think or believe or we do not have idea that **alternative medicine can correct such surgical pathology. The truth is alternative medicine can avoid many surgeries.** Hardly people have thinking to adopt alternative medicine. Alternative medicine covers a broad range of healing philosophies, approaches, and therapies. History of alternative medicine is long for many many years and has sustained time's testing. So it is easy to

understand that **combine approach can give best result as per one's expectations.**

God has created such system that, the healing forces are present within the body. Body is constantly reacting between its internal and external environment. It should be the physician's role to assist the body's natural state of homeostasis by cooperating with body's efforts to heal so that body gets cure from disease and its root cause is removed. Alternative medicine makes body in absolutely natural condition – physically and spiritually. **It is very important to know the opinion of experts all over the world that allopathic medicine will not offer to have complete cure from chronic diseases while alternative medicine as it stimulates life energy within the body, complete cure from chronic diseases is possible.**

Now Alternative medicine is not "alternative" at all, but rather the basis of the health care system.

Many National bodies suggest such changes but all of these changes are generalized and could take years to produce gains in the population's health. We, our self, must alter processes and priorities for our self.

Sustained improvements in managing chronic diseases require better practice systems, improvement in doctors' skills, and more effective use of various alternative medicines.

Patients should be treated as per their own constitution and requirements which varies from individual to individual. Just after start of the treatment by alternative medicines all patients gets satisfaction and definite improvement is there.

Alternative medicine offers positive health changes to a substantial proportion of a large cohort of patients in a wide range of chronic diseases. One of the reasons why alternative medicine is not more popular with the medical profession and the public is that it is too simple. The average mind is more impressed by the involved, mysterious and complex management. But one thing is certain that **those who one time takes help of alternative medicine will always employ alternative medicine systems only.**

Since last many years, beside my practice in ob/gyn – infertility, I have developed hobby to treat any chronic diseases by combine approach of complimentary alternative medicine. I can say with my experience that in almost all chronic case, which I treated, the results were successful, to more than the satisfaction. Some of the cases results **I treated were like miracle. I use combined approach of allopathy, homeopathy, ayurvedic, naturopathy, racki and other therapy.**

Carry home message is that do not suffer from chronic diseases for yourself or in your family and get total cure to remove root cause of disease.

**Dr Prakash Shah (Baroda – Gujarat – INDIA)
Senior Practioner interested in management of chronic diseases**

In how much time - which diseases will be cured?

Cure in short time (3 to 4 months)	Flatulence –Dysentery –Constipation-Acidity Stress – Depression - Headache Throat - Allergy – Chronic Cold - Cough Pregnancy Related Problems Old Age Problems - Premature Senility Acne – Boil -Abscess Skin-Itching - Urticaria
Cure in moderate time (6 to 9 months)	Liver Diseases -Gall Stone – Fissure –Piles- Ulcer Neuralgia –Insomnia -Twitching Heart Function - Hypertension Infertility- Male Problem –Menopause- Prostate Back Ache- Spondillitis –Gout -Joint Pain KIDNEY-Calculi Hair-Fall / Dandruff -Skin Warts
Cure in long time (12 to 18 months)	Child Growth And Behavior Problems Vertigo Arthritis –Osteoarthritis -Spinal Affection Diabetes –Obesity -Eczema

Chronic Diseases - Considerations

Special Note: - As this is the central theme of the whole substance, I request each visitors of this web site to please read this page carefully.

Sometimes the factors affecting chronic diseases are easy to detect and treat, but in many cases a specific reason for chronic diseases may be difficult to identify. Many patients, even after long and expensive treatments, do not get success. In such cases alternative medicine can help a lot.

Patients should be treated as per their own constitution and requirements which varies from individual to individual. Each patient requires sympathy towards their problem and all their quarries should be solved with utmost satisfaction. Every individual and patients handles the emotions of chronic diseases treatment differently. Individualized approach is of utmost importance. Sympathetic, human and heartfelt approach is must. They should be subjected to less repeated visits.

[It is helpful when beginning chronic diseases treatment to develop a perfect plan, so that patients can have an idea of how long to pursue a particular treatment.](#)

There are many systems of medicine available besides modern conventional allopathic treatment. They are designated as Alternative medicine. Most of these treatments and health care practices are not taught widely in medical schools of modern medicine – allopathy. Or in all the countries - all alternative medicines are not even recognized by government. [Alternative medicine in any form of practice is outside the realm of conventional modern medicine. But it covers a broad range of healing philosophies, approaches, and therapies.](#) Examples of very common alternative medicine are Homeopathy, ayurveda, naturopathy, rackii, acupuncture etc. Each system has their own characteristics and benefits to give healing and cure in many ailments for human being. Each system of alternate medicine claim's high for cure on its own way, it is easy to understand that combine approach can give best result as per one's expectations.

If treatment of alternate medicine is done along with or in addition to conventional medicine, it is referred to as "Complementary Medicine" - as the two practices complement each other.

So why not to take advantage of the various systems? Advantages of various systems of medicine should be combined to offer best approach for the management of childless patients. [This may give result faster, with less suffering and in economical way.](#)

Which system will suite to individual patient is the judgment and experience of chronic diseases specialist. If specialist is trained in one specialty, he/she will practice more in that system. [Combined approach of all system of medicine requires vast education – training and experience.](#) The choice of which treatment to pursue is strictly a personal one. Side effects, Costs and Expected success rates are important factors to consider when choosing a treatment plan

Chronic diseases are a very tragic and emotionally damaging and painful experience. I believe that it is crucial not to promise something that I can not deliver. Every patients whom I have started working has become far healthier soon with the start of treatment and it is this which give me sign that how far is the final result.

[I emphasize in the first consultation that how much time I will take - what will be my approach and what will be the cost of treatment.](#) I do not string them along for a long time in the hope that it will work in the future. Consistently the time for each patient is ticking and if I am not successful with my approach treatment within few months, I will be discussing with them about advanced conventional medical treatment. I say this even though my statistical success rate is good because as health practitioners, it is important to know when to admit, you are not able to help someone.

While no one can predict what the out-come of treatment is going to be for any patient, we can only try, final result is in hand of GOD only. But at the end of it, they all should at least have the satisfaction of knowing that patients got everything that was possible.

Authors note on alternative medicine

Alternative medicine is a group of diverse medical and health care systems - various systems of medicine that are not presently considered to be part of mainstream medical care. Examples of alternative medical systems include Ayurveda, homeopathic medicine, Chinese herbal Medicine, naturopathic medicine... so on.

It is noted that whenever any bodily ailment is there, more commonly people think on modern medical – allopathic – aspects only. Because we are filled with information of modern medicine only and hardly we have knowledge of alternative medicine. In all medical colleges only modern medical science (allopathy) is being taught. In modern medical sciences college alternative medicine is not being taught. Also in many countries all alternative medicine are not recognized. As well, guidance and treatment with alternative medicine is not available so easily. **So for their bodily ailments, very few people think on the line of alternative medicines. Few do not have any idea about existence of alternative medicines!**

In 1997, in USA, 627 million visits were made to practitioners of alternative medicine and spent \$27 billion of their own money to pay for alternative therapies. It is estimated, by none other than the Harvard Medical School, Boston that one out of every two persons in the United States between the ages of 35 and 49 years used at least one alternative therapy in 1997

In Australia 57 percent of the population now use some form of Alternative medicine, in Germany 46 percent do, and in France 49 percent do.

Survey in 1991 and in 1997 indicated the use of herbal medicines in the United States grew by 380 per cent

Now Alternative medicine is not "alternative" at all, but rather the basis of the health care system

How does alternative medicine differ from present medical care system (Conventional medicine)?

(1)Conventional medicine believes in **specifically targeting the organ**. Conventional medicine is organ specific; hence specialists and super specialists like ophthalmologists, cardiologists, nephrologists,

neurologists... etc. **Alternative medicine considers each person as a one body.**

(2) The philosophy behind Alternative medicine is that Nature includes all human bodies and **nature has all the ingredients to treat any human diseases.**

Alternative medicine utilizes life energy for cure, Corrects imbalances of life and strengthening of this life energy is the ultimate goal of alternative medicine.

(3) Alternative medicine believes in gentle, long-term support to **enable the body's own innate powers to do the healing so there is harmless approach.** Conventional medicine believes in aggressive approach so the drugs can have toxic reactions.

(4) In modern medical care system **focus is often on treating the disease and not the person.** Alternative medicine goes to the depth of diseases, mental and physical matters are taken into considerations.

(5) **Unnecessary investigation and procedures, surgery, chemotherapy, radiation, and powerful pharmaceutical drugs of conventional medicine can be avoided** by alternative medicine. Even many major and minor surgeries can also be avoided.

(6) For alternative medicine pharmaceutical and other allied **medical industrial complex is no concern so it is much economical.** Alternative medicine is devoid of propaganda budget for hospital and doctors so again it is much economical.

(7) Hospital infections, surgery complications, adverse drug reactions cause iatrogenic diseases and are cause of death. While in alternative medicines there is no death due to its practice. **It is harmless** - Many alternative medicinal substances do not come with-in the preview of FDA

(8) Conventional medicine is preferred in the treatment of trauma and emergencies while **alternative medicine excels in the treatment of chronic disease**

(9) Allopathic drug provides symptomatic relief while **natural remedy is intended to remove root cause of the disease.** - We must have eye to see it, see each system with respect and do not consider this as fake.

How does alternative work? What is the basis of alternative medicine?

Very generally, human body is considered and is integrated as whole substance, and it interacts with its environment. Human body is constituent of nature only. When body reacts to some aspect of environment - stress, food, pollutants, climate, medicine, etc – correction of homeostasis- body reaction starts and body tries to neutralize the reactants. This produces the symptoms and disease is generated. This production of symptoms for the same environmental reasons varies from individual to individual according to one's constitution. So cause is environment but symptoms are widespread. This means that treatments should be based on all symptoms of the patient

You must be knowing that in Far East countries like Japan – Taiwan – Korea – china. - **People live for long years and they are healthy.** WHY? Because they do not have the systems of medical care as we have got. **They first depend on their herbal medicine.** They believe in nature. We also see that some of Indian sadhus live and have body commend like miracle.

Like all other animal the **healing forces are present within the body**, and the physician's role should be to assist the body's natural state of homeostasis by cooperating with bodies efforts to heal it.

Cooperate with the body's restorative powers Health lies on the relationship within the organism, -- between mind & body, as well as the relationship between the body & the universe. When disruption of this relationship occurs, try to restore body's equilibrium through the use of preventative & curative efforts. We need to know how to cooperate with the body's restorative powers.

When illnesses are not infectious, but due to body degeneration like heart disease, diabetes, arthritis, osteoporosis, (chronic diseases)...etc **most of today's allopathic drugs don't correct them.** This is

where we must have to adjust our thinking toward consideration of the other system of medicine. By our experience we know that long-term use of drugs ensures that people never get quite better, and slowly deteriorate due to side effects of the drugs, developing of poor immune function, advancing age problem and as time goes by, more problems are "discovered," so more drugs are prescribed. At some

point the conditions can become so severe that the only option available is surgery or do nothing and just wait.

Alternative medicine makes body in absolutely natural condition – physically and spiritually. Alternative medicine in any form of practice is outside the realm of conventional modern medicine Practitioners. If specialist is trained in one specialty, he/she will practice more in that system only. Meaning allopathic doctor will treat only on line of allopathic knowledge; homeopath will treat only on homeopathic way only & so on. Combined approach of all system of medicine requires vast education – training and experience. **A consideration of combinations of alternative medicine covers a broad range of healing philosophies, approaches, and therapies which will give definite and good results.**

Alternative medicine is definitely useful

In cases of (think of alternative medicine in following)

Multiple organ involvement of disease

When you have been treated right but still improvement is not satisfactory

When desired drugs are not showing proper action.

Improvement is not as per expectation.

Before any major operations

VARIOUS ALTERNATIVE MEDICINE

Following have been very common: -	Following have been not very common: -
Ayurveda	Biofeedback
Homeopathy	Chelating Therapy
Chiropractics	Color Therapy
Hypnotherapy	Cognitive Behavioral Therapy
Acupuncture	Glandular Therapy
Reiki	Humor Therapy
Osteopathy	Hydrotherapy
Herbal Medicine	Prayer & Spiritual Healing
Yoga	Sound Therapy
Meditation	Spiritual therapy
Aromatherapy	Light therapy or phototherapy

Considerations on Health

Please read carefully and think over this

"Disease will never be cured or eradicated by present materialistic methods, for the simple reason that disease in its origin is not material. What we know as disease is an ultimate result produced in the body, the end product of deep and long acting forces, and even if material treatment alone is apparently successful this is nothing more than a temporary relief unless the real cause has been removed." - Dr. Edward Bach

We are accustomed to associate our ill-health with a variety of factors from microbes to the weather, the food we eat and a variety of other things. But experts, healers and our ancient literatures tells us that the 'cause' of our illnesses cannot entirely lie in these external factors - for the same person who is now sensitive to the slightest breeze would have, a few years before, loved the exhilaration of cold wind and bath in rainy seasons. The same person who could sleep soundly after a cup of coffee now suffers insomnia on eating the slightest bit of the 'wrong kind' of food. The same person who would go happily on with life for months without any kind of illness now gets a fever or a cold on the slightest "exposure to microbes". In the same family we observe that the things which some enjoys is hazardous to sufferer. Obviously, something has changed within the patient, and this has rendered the person sensitive to all these things which never bothered him before. Have you experienced this at any time of your life?

Dr Edward Bach, a respected- renowned physician, bacteriologist and homeopath of his time, discovered during the later years of his research that illness of the physical body is very often rooted in disharmony of the mind and body- the physical illness being just an end product of that internal disharmony. Once harmony is restored to the patient at mental and emotional levels, the body naturally regains its vitality and a majority of its physical 'diseases' disappear. Further, the patient finds and enjoys same past interest in life and is able to lead a fuller and more meaningful life.

Today's medical theories lead us to see 'disease' as a purely mechanical consequence of the state of the physical body and the

environment. short tempered people more likely to have symptoms of hyperacidity, high blood pressure or heart diseases; asthmatic people, often tend to have a weak personality, tending to suffer from fears, lack of confidence etc, or, in some cases, a tendency to always boss over others. Let us for a moment consider present day medical science's approach to treatment of hypertension - high blood pressure. According to conventional medicine, the cause of 90% of the cases of hypertension is 'unknown' and hence treatment being sought for in the physical body alone, completely ignoring the fact that we are conscious beings, with our every day thought and emotion have an impact on our physical bodies. Unfortunately, this style of treating the symptoms alone has become more or less 'mainstream' - imbalance is ignored and the treatment merely attempts to temporarily restore balance through intake of anti hypertensive compounds. We are not questioning the effectiveness or the need of such an approach in handling the symptoms and the fact is that cure is often temporary – due to the simple reason that the cause is still operative. Always argue in your mind about effectiveness of treatment. *"This disharmony, disease, makes itself manifest in the body for the body merely serves to reflect the workings of the soul; just as the face reflects happiness by smiles, or temper by frowns. And so in bigger things; the body will reflect the true causes of disease (which are such as fear, indecision, doubt, etc.) in the disarrangement of its systems and tissues" - Dr. Bach*

Disease - a person suffering is from within himself - in mental conflicts such as fears, depression, apathy, boredom, hatred etc. So, in healing focus should be on removing from the patient's mind these negative factors. Once this negative factor is out happiness is imminent.

In fact Ayurveda, Classical Homeopathy, ancient Chinese medicine all emphasize the importance of a virtuous and harmonious mind.

In healing with these herbs, the focus is on restoring balance and vitality to the patient. Changes in the psychological sphere as well as the general sense of vitality and well-being are often the first signs that show the healing process has begun. A sense of spiritual quiescence, mental harmony and physical well-being are complementary aspects to this system.

Bach flower remedies can eliminate a lot of negative emotions and heal the mind to a great extent.

I urge you to take advantage of this state to work towards the perfection of yourself, to explore your interests and let me be of the greatest service to yourself and to those around you.

The goal is our own perfection, and our diseases are understood to be merely corrective when we are on the right path.

Expert's opinion on health

"citations for religious literatures"

"We have so long blamed the germ, the weather, the food we eat as the causes of disease; but many of us are immune in an influenza epidemic; many love the exhilaration of a cold wind, and many can eat cheese and drink black coffee late at night with no ill effects. Nothing in nature can hurt us when we are happy and in harmony, on the contrary all nature is there for our use and our enjoyment. It is only when we allow doubt and depression, indecision or fear to creep in that we are sensitive to outside influences. It is, therefore, the real cause behind the disease, which is of the utmost importance; the mental state of the patient himself, not the condition of body."

"Any disease, however serious, however long-standing, will be cured by restoring to the patient happiness, and strong desire to implement or carry on with his motive and work of his life"

"So again let us clearly understand that our physical illness is of no consequence whatsoever: it is the state of our minds, and that, and that alone, which is of importance."

"Disease is in essence the result of conflict between Soul and Mind, and will never be eradicated except by spiritual and mental effort. Such efforts, if properly made with understanding can cure and prevent disease by removing those basic factors. No effort directed to the body alone can do more than superficially repair of damage since the cause is still operative and may at any moment again demonstrate its presence in another form."

".. We must realize that the short passage on this earth, which we know as life, is but a moment in the course of our evolution. Birth is infinitely far from our beginning and death is infinitely far from our ending. Our Soul is immortal, and the body of which we are conscious is temporary, merely as horses we ride to go a journey, or instruments we use to do a piece of work."

".. Then follows a fourth great principle, which so long as our Souls and personalities are in harmony, there is joy and peace, happiness and health. It is when our personalities are led astray from the path

laid down by the Soul, either by our own worldly desires or by the persuasion that a conflict arises. This conflict is the root cause of disease and unhappiness. No matter what our work in the world - bootblack or monarch, landlord or peasant, rich or poor - so long as we do that particular work according to the dictates of the Soul, all is well; these contains lesion of life and gives us the best advantage for the development of ourselves." You have to believe and experience this truth.

So the perfect science of healing teaches and assists the person to develop that virtue which will make, once and for all, immunity against that adverse quality.

TREATMENT APPROACH

For patients of online management, previous examinations notes – investigations reports and other case papers notes by any previous Medical Practitioners are important and considered by me. So if possible scan and email all previous records.

Once I receive information, I will soon analyze, and then I will email to the patient, to call me on my landline phone number (091 265 2430162), at specific time. At which time I will open my software. So that I can note down each and every symptom, as asked on phone, directly on the software, to get required line of approach. This will have absolutely personalized approach and the management will be specific for that particular patient only.

Once the diagnosis and line of treatment is established, I will communicate about the charges for management.

Here my intention is to take as less charges as possible from patients. For patients of easy diagnosis, I want to take fewer charges and from patients with complicated approach, I will take only regular charges.

I believe that I have got special study and knowledge about the subject and let more people take advantage of it. I will get pride, if by my treatment patients gets cure.

Homeopathic and ayurvedic medicine is supplied from here. Modern allopathic medicine is prescribed (or if asked by patients can be supplied on request but with extra charges only at market cost.)

Once this charge is deposited in my bank account, I will mail the medicines and all required information on the address given.

Terms

- 1) All cases taken up for treatment &/or consultation are studied in detail using a special software.
- 2) The best quality of medicines is used for dispensing.
- 3) Name of medicine in alternative medicine – homeopathy or ayurveda or any other system is not given so please do not insist on it.
- 4) The medicines will be delivered to the patient by courier.
- 5) It is not possible to offer a 100% guarantee of cure. In case of being unable to achieve a cure, the patient or his/her relatives will have no right to ask for any financial &/or other claims/damages.
- 6) Homeopathic and any medicine of alternative therapy is free from side-effects. Hence any untoward development taking place during the period of treatment is not to be blamed on medicine or management offered & the patient will have no right to ask for any damages with respect to the same.

Special Note

I hope my readers can appreciate the need for inclusion of the above disclaimers due to nature of online consultation. Though it does sound a little harsh in context of the noble profession of a doctor... Trust and doctors-patients relationship is of utmost importance. [Ultimately whatever doctors is doing, is for benefit of patients only. And please be sure that I will try and use my all knowledge to do all the best, to get as good results as possible for the patients. I am sure to satisfy patients.](#) But certainly doctor is also a human being and not GOD.

Final working method:

Step :-1) Send the previous reports and all relevant papers by email (another alternate email address is: prakashbaroda@yahoo.com)

Step :-2) After studying the previous papers, I may ask for more information on email and in the same email - I will let you know the exact time for you to call on my landline number (091 265 2430162)

Step :-3) At which time, I will open my software and take detail history and record on computer.

Step :-4) I will analyze and study. Then I will come to final diagnosis and by email I will inform you, how to proceed and also to deposit the charges in my bank account

Step :-5) After confirmation from bank about deposit of required amount, I will send the medicine by post with details of instructions, how to use the medicine and other relevant information for cure.

Step :-6) Even after that, if any quarries are there, you can email me or talk to me on phone.

My Methodology

Respected valued patients,

I want to emphasis about my methodology. The nuts and bolts of how I work, from when the client first contacts me, through the case taking process, case analysis, repertorization to case management. I have cured many hundreds of cases over the last 35 years, and have been refining my method of working over time and again, and would like to share what I have come up that works for you.

Many of my admires- cured patients, have been insisting that I should give list of my cured patients. They are ready to give their address and contact number also. They are ready their experience with any needy patients. They argue that how a stranger – far away - in need of right choice for a medical person like me, will know about me and my abilities. Their emotion and sympathy is right.

But this I feel that will be self praise and also it is not thoroughly possible, as the cured patients list is very exhaustive, as I have cured almost all types of diseases - in all systems of body. If few patients are selected, for which patients to select and mention will be a big question for me.

Now I have that experience that many times on phone only I get complete information, even before analysis and can see which areas I need to focus on for ultimate cure. I know the remedy they need without ever having seen them, just by reviewing the questionnaire.

My questionnaire is very thorough, and nothing has been neglected. On computer all the information can be put where it belongs in the appropriate category, for all time to come.

I get the information of the measurable symptoms, all the particular, general and physical symptoms.

Some of symptoms are pertinent homeopathically. And they have easy answer in homeopathy. While some can be treated best by herbal/ayurvedic drugs and for few I have to take help of other systems of medicines.

Perhaps you will not be able to find full knowledge of all various important systems of medicine in any one medical Practitioner, that is I. (For details you can view page – about us).

This way I look at the case in manifold ways. I can pick and choose which symptoms I feel are absolutely necessary to the case. I can combine them this way or that way till I feel I have a grip on what is going on. The

fascinating thing about this is that just one symptom may totally change the list of remedies.

I reexamine each symptom and see if this is exactly what I am looking for or not.

This is particularly important for a very precise diagnosis that I am looking for. This is well worth doing, and simply easier using a computer.

I have to study to go deep within every systems of medicine, to the place in me, which is correct for everyone and then to tune in for medicine.

Now I can make the prescription with confidence, and know that I have selected the right remedy for that patient. And then I go for the medicine.

I get the satisfaction that I have done my job and I have done it well. I trust in the universe that what needs to happen will happen. I have done my work in the spirit of Karma Yoga. I am sure to get the good result for all patients – as GOD has blessed me.

I have attended many seminars – workshops and conferences. I have been key-note speakers – panelist and also presented many research and general papers. Every time I attend such meetings, I learn something new, exchanges

ideas with experts and different worker. Means I keep my doors of my perception always open to let me, become better and better at what I do?

I humbly put that this particular clarification and is demanded because you have not met me personally as well it is your right to have it.

God bless all of you. I love you all.

Thanks

Dr Prakash Shah

EYE OPEN ADVICE

Dear visitor of my web site,

I know how hard it is to find honest, expert advice that can truly solve the life's biggest problems facing you – particularly on internet. But that's the kind of advice that I am putting. The kind of advice that you can count on – you can rely. After all, you deserve nothing but the best.

It is easy for you to read, understand, and act upon. If you can understand this web site you're reading now, then you're going to understand everything. This the same as if I were explaining these ideas to you, while sitting at kitchen table

Believe me that combined approach of all alternative medicine treatment will give much satisfied result you have never expected. This not only treat main problem but can change life. It can give enjoyment in your life & Removes diseases from root cause. Modern – allopathic medicine does not do so. That's the kind of advice I am putting. This is the kind of advice that you can count on. In fact, I guarantee you're going to get all the results you want. Exactly what you need. You will get natural advice to change your life.

Many a times we wanted not only a Doctor but a guide / teacher who can understand the root cause of our problem and treat not only the problem but to teach us the way we should live. A person who can improve his quality of life by applying these easy and economical methods.

Your life is going to change... for the better! In fact, I guarantee you're going to get all the results you want - some of the newest, most cutting-edge discovery and advice on the planet.

I've done all the work for you. You could just take advantage of all the blood, sweat, and tears I've shed for you.

Here's my guarantee to you.

In fact I have hobby to treat chronic diseases patients and I gets satisfaction of life when my patients gets success with such a simple advice when most powerful research does not give desired results.

The reason why I'm doing this is that I want to treat you how I wished all other business people would treat me when I'm in their place of business... like a VIP guest.

Your personal information is totally protected. You have my word.

I truly believe that... your life will become fine - Dramatically.

Please benefit from my long experience.

Can I expect your call?

I will do my best for your problem.

Yours truly,

Dr Prakash Shah

Alternative Medicine Testimonials

Short case history - (only relevant) - details of any case can be held on request

Mrs. Nilam santosh vadvale, 24 years, residing in Boston USA on H1 visa from India, H/O Continuous wheezing cough, fever and malaise since 4 week, Patient's husband approached me at 10=00 pm on 7th may 2004 for his wife. And gave history that his wife is in comatose state, have high fever and cyanosis. On 23rd March 2004 (he had all relevant paper with him), at Boston USA, she was diagnosed as **Extensive inhomogeneous pneumonia- right lower lobe of lung, thickening of interstitial and bronchovascular marking** (x-ray report from Boston). Patient was on high antibiotics and management. But she did not improve on 26th March 04, (x-ray report from Boston). They came to INDIA on 29th March 2004, started care under Pulmonary Specialist. On 14th April 2004 she had worsened – x-ray, (non resolving tuberculous and pyogenic pneumonia), Widal test positive, C T Scan showed bronchitis obliteration and pneumonitis – enlarged mediastinal lymphnoes. She was admitted in Multy Specialty Hospital in Baroda but no improvement. Pt was worsening. She was advised to take to Bombay for surgical treatment on sixth day. Relatives took discharge. Pt's husband approached me at 10=00 pm on 7th may 2004 I started homeopathic and rackii treatment. And with in 24 hours, she started fast recovering. On 13th May 2004, she had no cyanosis, no fever, feeling better, can communicate well and had improved appetite.

On 17th may she was absolutely normal, good appetite and feeling much better, could go out.

I treated her for further 1 ½ month. They went back to Boston USA on 7th July 2004. Completely healthy and then she never had cold or fever even during cold stormy weather.

Mr. Jatin shah, 28 years, Residing at Ghadiali pole, Baroda, **Severe jaundice since last 3 months – now Hepatic coma,**

Patient is staying just next to my street. His father is family medical practitioner. He had jaundice since last 6 weeks. Initially he was treated by physician. But for 25 days no improvement. So he was admitted to multispecialty hospital. He was under extensive treatment but no improvement, all laboratory investigations were worsening. Sr bilirubin which was 5.2 increased to 15, SGPT 1225 to 2545, SGOT from 560 to 1400. He went in to hepatic coma on 5th week. He remained in coma for 5 days and now there were no hopes for survival.

As his father was medical practitioner so I had good contact. He was unaware of my interest in alternative practice.

When I knew; I offered him to I treat your son by homeopathy. He replied, when his end is certain what difference will it make whatever you do.

I started homeopathic and rackii line of treatment. On 3rd day he started responding from coma, on 6th day he was feeling better and oral liquid was given.

All laboratory investigation came down on 9th day.

He was on full diet on 18th day and absolutely normal of 37th day. I had also started ayurvedic line of treatment from 18th day.

Mr. Twinkle shah, 34 years, Staying at Los Angeles USA, Severe pain in right hypochondriac region, vomiting and malaise, case of **Gall bladder stone,**

Pt had severe pain in abdomen, vomiting, frequency of stool, severe malaise for 3 days, he went to Specialty Hospital in Los Angeles USA. Diagnosis of gall bladder stone was established. Expectant line of treatment was given, he was settled. He was advised to undergo cholecystectomy at earliest.

His wife told me history after 5 days on phone. I said wait for 10 days and I am sending you medicine from INDIA.

I gave him homeopathic, ayurvedic, naturopathic medicine and diet advice.

Within 20 days he became absolutely alright, subsequent sonography revealed no gall stone.

Now 1 ½ years has passed he is asymptomatic and no other complain.

Maulik shah, Son of My sister, case of **Proliferative Interstitial and glomerular nephritis,** Since 7 years of age, Odema all over body, scanty urine, severe adynamia, and other symptoms were present and it was progressing slowly. At 14th years of age, his blood urea was 56, sr creatinin 4.1, urine albumin 4+, presence of casts, Odema 3+ all over body. Prognosis was grave. Pt was on high steroid.

I started homeopathic medicine; signs of improvement were present in 2 months.

At 2 years pt improved completely; thereafter every 12 to 15 months follow up treatment was given, for 4 years. At present pt is 28 years of age- completely healthy

Miss Sanjida, 4 ½ years, Daughter of Rizwana salim pathan, **Irregular child behaviors'-(mother had infertility – coitus problem)**

These whole families are my regular patients and visit me frequently.

Rizwana had infertility for 3 years of marriage life. Her all investigations were normal except that her post coital test revealed no sperms after coitus. I found severe veganism's, Which was corrected by homeopathic treatment and sex therapy. within 3 months only she conceived

This child – Sanjida - was delivered at my clinic by LSCS.

There after mother had another LSCS at my clinic and had male child.

In last May 2008, mother had appointment at my clinic for her menstrual problem but they came very late after 5 hours of appointment, while asking the reason, they told Sanjida had appointment with neurophysician, as since last 2 years, she is behaving very irregularly- always weeping, crying, not going to nursery, restless, does not eat home food, irritable, violent, hits her head with wall, does not answer properly, daily bed wetting. We are all tired and much worried. Since last 1 ½ years, she is under treatment of pediatrician, psychiatrist and now under neurophysician. She was treated by antipsychotic/ anti-anxiety drugs,(all investigation and her EEG is normal), but without any difference.

During last 2 years all family including this child visited me frequently but they did not complained about this child. The father and mother told, sir, you are ob/gyn specialists so we thought that this is not your subject so when we were coming to you, we use to keep Sanjida out of your consulting office, otherwise she will disturb you.

I started her homeopathic, ayurvedic and naturopathic drugs and child had surprising improvement within 15 days only.

Again after one month in July 2008, all family visited me and they all are satisfied. Sanjida's behaviors' are normal and goes to school. Bed wetting has also stopped.

Mr. Mudgel, 54 years, **Angina pectoris,**

Pt is very close friend of mine since last 20 years. In July 2000, he had severe pain on left side of chest, sensation that heart would burst, dyspnea and violent palpitation, pale, severe perspiration, uncomfortable sensation at pit of stomach, suffocation and full throbbing carotids in neck. His wife called me, I was out of Baroda. I advised him to get admitted at ICCU. Diagnosis of angina pectoris was established and right line of allopathic treatment started. Cardiac monitoring changes were suggesting grave prognosis.

I saw him after 12 hours on my return to Baroda. Immediately I started all alternative therapy even when he was in ICCU. After 24 hours, after 48 hours and after 7 days he showed remarkable and unbelievable improvement. All allopathic cardiac drugs were stopped after 15 days.

After 2 months he had normal treadmill test. And till then, even today, he is absolutely normal, every year or two, undergoing TMT which comes normal.

Mrs. Rama Jain, 43 years just visited my hospital to see one Vaginal Hysterectomy patients. I noticed that she had multiple problems and just on asking how are you? Does your health alright? Then immediately started crying and started narrating her problems. – **A case of constitutional disturbance.(like this many people suffer unnecessarily for want of simple treatment)**

On general condition she had great debility, irregular pigmentation on face, around eyes or on other parts of body. Some of the female characteristics diminished. Hairy irregular growth on face, both legs and on abdomen, limbs looks flabby, obese and old, breast shriveled; neurasthenia of various nerves- backache/calf pain/headache... dyspeptic troubles, Uterus is enlarged and hard. Urinary problems- incontinence/frequency/burning, she also had Irregular menstruation- too frequent, excessive and always leucorrhoea, mental moral and physical deterioration and degradation, once good natured is now irritable and miserable. She consulted reputed three different specialists within five and half years of suffering but never get well. Such patients suffer from constitutional disturbance and for them alternative medicine works marvelous. This patient was given three months of homeopathic and herbal medicine. Within 15 days she started feeling well and after 6 months almost cured.

Testimonials Fertility Treatment

Short Details - (only relevant)- details of any case can be held on request

Mrs. Raxa Mehta 29 yrs/ Karelibaug Baroda, **Infertility - 6 years of marriage life – Oligospermia / Bilateral varicocele** – Mrs. Raxa And Mr. Jatin approached me for infertility for 6 years duration. They had taken treatment at 3 infertility specialists. Mrs. Raxa had undergone almost all infertility investigation, including ovulation study, diagnostic laparoscopy - all were normal and nothing particular. Mr. Jatin had oligospermia- sperm count less than 20 million/ motility grade1/ morphology abnormality in 30% of sperms. On Color Doppler study, he was diagnosed as bilateral varicocele grade 3. He was advised to under go surgery for which he was reluctant. They had undergone IUI for 6 cycles but failure.

I started homeopathic, ayurvedic, naturopathic, biochemic line of treatment with sex advice and to report every two months. On fourth month patient missed period- on tenth day urine pregnancy test revealed positive.

Antenatal period was smooth and she normal delivered healthy male child on due date

Mrs. Prerana Shah, 31 yrs, Race course circle, Baroda- **Infertility -9 years of marriage life, Pelvic inflammatory disorder** – Mrs. Prerana Shah had 9 years of marriage life. She had conceived soon after marriage on second month but they did not wanted child at that time and went for medical termination of pregnancy. After two years they started trying for pregnancy but did not conceive. One and half years of that, they approached Ob/gyn specialist. They under went all investigations. Husband semen exam normal Ovulation sonography study was showing normal. On diagnostic laparoscopy she had multiple adhesions in pelvic cavity. Laproscopic adhsiolysis was done. But again for 2 years of trying she could not conceive. Like that they changed 4 infertility specialists. IUI for 6 times, on various protocols were also done.

She approached me. I started conventional medicine, ayurvedic, homeopathic, naturopathic, biochemic and rackii line of treatment on 3 rd months she conceived. But she had abortion at 9 weeks of pregnancy. I further started same types of medicine and again she conceived after 4 months of treatment. This time two sittings of positive hypnotherapy suggestions were given at 6 weeks of pregnancy. She had uneventful full

term delivery of male child.

The child is at present (2008 September), 3 ½ years of age and she is again pregnant - 22 weeks of pregnancy.

Mrs. Chetana Joshi, 29 years, Sharadnagar, Tarsali, Baroda - **Infertility 6 years - Oligomenorrhea and Secondary amenorrhea** – Mrs. Chetana Joshi came to me for secondary amenorrhea of 9 months duration. She had history Oligomenorrhea from menarche- start of puberty. Since start scanty menses for 1 or 2 days at every 3 to 4 months. Married at age of 23years. She was treated previously by two infertility specialist using various hormone and ovulatory protocols for 3 years. She used to have regular menstruation till she got hormonal treatment. But as treatment stopped she had no periods. She came to me by reference of one successful patient. First I started with homeopathy, ayurvedic, naturopathic drugs for 5 months. She had improvement in her other general symptoms like reduction in wt, no headache, good and cheerful mood etc. Then I started hormonal and ovulatory drugs. I gave hypnotic positive suggestions during this period. She conceived after 4 months of treatment.

Hormonal line to treatment was continued for another 4 months i.e. in first trimester and alternative medicines till end of antenatal period. Elective LSCS was done for oligohydramios at 36 weeks of pregnancy. Both mother and child were in good health.

After 5 months of postnatal period she had normal menses. She conceived again after 14 months of first delivery. This time only supportive medicine. This baby was delivered again by LSCS.

In Sep 2008 first daughter is 5 ½ years and second son 3 ½ years of age. All are in sound health.

Mrs. Sakina Yakub Patel, 32 years, Broach, **Infertility of 7 years duration, Secondary Amenorrhea-Pituitary adenoma- hyperprolactinamia.** This patient came to me in year 1984. With H/O secondary amenorrhea – 9 months duration. Laboratory investigation revealed serum prolactin 131mcgm / ml.

At that time(1984) bromocriptine was not available in INDIA, which they procured from UK. Tab Parlodel 2.5 mgm 3/day, for 6 weeks was given. During this time she had twice normal period but then she did not had period. Patient came to me after 12 weeks which time on p/v exam I found that she is pregnant. Whole antenatal period was uneventful LSCS was done baby girl was delivered.

Again after 2 ½ years (1987) of this same patient came again with c/o amenorrhea and she wanted to have pregnancy. Serum prolactine this time was 151mcgm/ml. again tab parlodel 2.5 mgm 3/day for 3 months given and after 2 normal periods she conceived again. Full term LSCS was done healthy baby girl was delivered.

Again after 2 ¾ years (1990) same story repeated. . Full term LSCS was done healthy baby girl was delivered.

After having 3 daughters patient wanted to have son.

Same story repeated. Full term LSCS was done healthy baby boy was delivered.

First daughter is at present 23 years of age, happily married and has one female child. Second is 21 years, third is 18 years, fourth son is 14 years of age. All are very healthy and cheerful and good in study.

Patient is at present-(sep 2008), 55years of age and in good health but taking alternative medicines as required.

More than 35 couples – different age from 29 to 39 years of age, **Want to have male child.**

Females are XX genotype while males are XY genotype. All female ovum contains X gene while male semen contains two types of genes X and Y sperms. When female X unite with male X, result is female child, while female X unite with male Y, result is male child.

So there are equal chances of getting male or female child. Then what determines male conceptions or female conceptions? Strength of X and Y sperms and internal reproductive environment of female partner determines union of female X ovum with male X or Y sperm.

X sperms are heavy in weight, they survive in acid, they have long life, they travel at less speed and they are stronger- in adverse circumstances they survive. While Y sperms are low weight, they die in acid, they have short life, they travel at more speed and they are weaker- in adverse circumstances they die.

These characteristics are utilized for conceptions for desired sex child. Desired strength of Y sperms and internal reproductive environment of female partner at time of conception can be made favorable to get male child.

With 98% of accuracy couples have been given guidance for getting male child

SPECIALIST'S RESUME

DR PRAKASH SHAH

M.D., D.G.O. Obstetrician and Gynecologist

Roshni Poly Clinic

Ghadiali Pole,
Baroda 390 001. Gujarat. INDIA.

Disclaimer

Chronicreat.com for sense, as it is working. It is trying to play a critical role in closing the gaps in our healthcare. So Chronicreat.com generates better health for people with chronic diseases and lower overall costs. It has proven to be effective for chronic diseases. It does a better job of caring for people with chronic diseases. Some alternative medicine may lack biomedical explanations but as they become better researched, some, such as homeopathy, ayurveda, naturopathy, herbal and acupuncture, have become widely accepted.

Alternative medicine treatment usually does not go as per diseases' diagnosis of conventional medicine. All Different alternative medicine has their own way of treatment. On diseases' diagnosis of conventional medicine, to seek approach by alternative medicine will be misleading and may not give desired results. Patient has to strictly obey the methodology of particular Alternative medicine. Name of medicine in alternative medicine – homeopathy or ayurveda or any other system is not given so please do not insist on it. The above list is by authors' experience only and it has no legal medical background. Cure and time is as per author' general experiences only, human body can have their own constitutional behaviour for medicine approach. So cure and time can differ for each individual.

In medical world nobody gives absolute guarantee for cure. In case of being unable to achieve a cure, the patient or his/her relatives will have no right to ask for any financial &/or other claims/damages. Homeopathic and any medicine of alternative therapy are free from side-effects. Hence any untoward development taking place during the period of treatment is not to be blamed on medicine or management offered & the patient will have no right to ask for any damages with respect to the same.

I hope my readers can appreciate the need for inclusion of the above disclaimers due to nature of online consultation. Though it does sound a little harsh in context of the noble profession of a doctor... Trust and doctors-patients relationship is of utmost importance. Ultimately whatever doctors is doing, is for benefit of patients only. Doctor is not GOD. Author can only try to give maximum possible results.
